## Summary

As a Professional WordPress Developer with over 3 years of experience, I have a strong track record of developing and maintaining high-quality websites for clients across various industries, including E-Commerce, Media, Education, and Agencies. I specialize in database management and optimization using MYSQL, which ensures that the sites I build are optimized for performance and deliver a seamless user experience.

### ►Experience:

- Built custom WordPress themes and plugins that are optimized for performance using MYSQL.
- Worked on various WordPress websites, ensuring they are secure and free from vulnerabilities.
- Created responsive designs that work seamlessly across all devices.

### ►Skills:

- Expertise in WordPress development, including theme and plugin development, customization, and maintenance.
- Strong knowledge of MYSQL database management and optimization for performance.
- Well-versed in WordPress security best practices to protect sites from vulnerabilities.
- Experience with responsive design and ensuring cross-device compatibility.

### ►Career Highlights:

- Built an E-Commerce website with an MYSQL database that handled over 10,000 transactions per day without any performance issues.
- Optimized the database of a media company's website, reducing load times by 50% and improving user experience.
- Implemented robust security measures for an education client's website, ensuring protection against malware, hacking, and data breaches.

As a highly skilled and dedicated developer, I am committed to delivering exceptional web solutions that meet the unique needs of each client. I have excellent communication skills and can work collaboratively with clients, designers, and other developers to ensure timely and successful project delivery. I take pride in providing exceptional customer service and ensuring that my clients are satisfied with the final product.
